CORRECTION. -In the proceedings of the Board of Directors of the Wilmington and Manchester Rail Road Company, published in the Journal of the 2d inst., the next meeting of the Board is incorrectly stated to take place on the "last day in July next," when it should have been the last Wednesday in July.

We learn that the amount of damage sustained, was about four or five hundred dollars.

17-We call the reader's attention to Mr. Leak's letter, which will be found on the first page of to-day's paper. It is a very sensible paper, and its ability leads us to regret still more the inability of its author to canvass the district as Mr. Barringer's opponent.

THE SEVENTH DISTRICT.

We would address a few remarks to the Democratic voters of this District. The election of some person from amongst your numbers to represent you in the next Congress of the United States, will take place on Thursday, the 5th of August. That day is fast approaching. Our object in now addressing you, is not because we do not feel certain that you have, with a unanimity unparalleled, perhaps, in any other Congressional District n the United States, made up your minds a to who you will vote for; nor is it because we do not feel equally certain that you will elect your choice, so surely as the day of election rolls round. We do address you, however, for the purpose of urging upon you the propriety of coming to the polls upon that day. Many of you, we presume, have said. and will say, to yourselves, that Gen. McKay has really no opposition, and therefore there thrctly ascertained. is no necessity for your troubling yourselves by riding to the election ground. It is true we do not, nor do you, look upon either Mr Hall or Mr. Bryan as offering any real substantial opposition. But, in our estimation, this is no reason why every Democrat should not vote on the day of election. Suppose, for instance, that the Democrats in the District were to act upon the idea that Gen. McKay has no opposition which requires a full turn out upon the part of his friends, and the vote consequently be very small, would not both Mr. Bryan and Mr. Hall say that the party had ceased to have confidence in Gen. McKay, and therefore the small vote. And this they would say, no matter how meagre the vote would be which they might receive themselves. We ask the reader if this would not be the case. We, therefore, would urge upon our Democratic friends throughout the District, to

time to come. In a word, let us poll for Gen. McKay our whole strength on that day. RECHABITES. On Saturday last, the 10th instant, the Rechabites of the town of Wilmington celebrated the first anniversary of the Rock Spring Tent of that Order. The procession was formed about 10 o'clock, A. M., opposite the Tent Room, on Market Street, and marched from thence to the Methodist Protestant Church, where an oration was delivered by the Rev. Mr. Jones. The procession was indeed, a very large and beautiful one. The banner which they carried is one of the most beautiful and appropriate which we have ever seen. After the delivery of the Oration, and

" July 6th, 1847. " My Dear Sir :- It affords me much pleasure to assure you that Mr. Hill (of your town) delivered at this place, on Saturday last, a most excellent and appropriate oration. So far as I am competent to judge, and so far as I have been able to learn, it gave such satisfaction as ought to make its author feel very much gratified. It was so highly thought of by those who heard it, that, if Mr. Hill's consent can be obtained, the Committee has been desired to have it published."

The Mexican papers state that a communication had been received in that city from Gen. Scott, stating that he had a Commissioner from the U. S. Neither Gen. Cadwallader nor Gen. Pillow had arrived at headquarters, on the 30th of June, but Mr. Kendall says that they were daily expected. They had been very much annoyed by the guerillas.

Santa Anna had established a complete censorship of the press in the city of Mexico, which accounts for the fact that we cannot gather from the Mexican papers any further intelligence as to the preparations which are making for the defence of the city. Already had several editors been imprisoned, and others were threatened, if they wrote any more articles reflecting upon his government.

Some 600 horses and mules had been stolen from Vera Cruz, by the guerillas, as it is supposed. Parties had been sent out for the purpose of recovering them, but they had been

The vomito was on the decrease at Vera Cruz, when the Alabama sailed.

The sum and substance of the news is thi the command of Generals Pillow and Cadwallader had not reached Puebla, and therefore Gen. Scott had not advanced-that they were daily expected, and then, if negotiations for peace were not opened, Gen. Scott would march upon the City of Mexico. What opposition he would meet with could not be dis-

FROM GENERAL TAYLOR.

The steamship Alabama, which left the Brazos on the 4th inst., brings the Mattamoros Flag of the 3d, but it does not mention any arrival from General Taylor's head quarters.

We have dates, however, from Monterey ap to the 20th June. They, however, con tain nothing of importance. The health o the army was, at last accounts, excellent.

Eight companies of the North Carolina Regiment under Col. Paine, had arrived at Sal tillo, all in fine health and spirits. We find nothing which can enable us to form an opinion as to whether General Taylor intends to march upon San Luis Potosi. We think he will not do so for some time, as he will wait for reinforcements, which are daily being oushed on to him. One writer thinks that he will not be in a situation to move before the 1st of September. These are mere specula-

THE FRENCH STEAMER. - The French steame Union, the first of the great mail line from that country, arrived at New York on Thursthat, as yet, it had not been accepted by eith- day afternoon, the 8th inst., in 16 days from Cherbourg, which place she left on the 220 June. The intelligence which she brings i not of much importance. The prospect of harvests in France was of the most cheering nature when the Union left.

> We notice from the Charleston papers that the steamer Southerner, on her last trip to New York, carried to that city quite a car go of water melons.

BOWEL COMPLAINTS occur more frequently during the Summer months than at any other period, because at this season of the year, the system being debilitated, digestion is not sufficiently active to dispose of the food before it becomes putri-This is indeed a heavy increase. The ship- fied; hence a peculiar acid is generated in the stomach, which is the cause of those horrid diseases called dysentery, cholera morbus, inflammation of the howels, &c. Wright's Indian Vegetable Pills are a natural remedy, and therefore are a certain cure for all kinds of bowel complaint; because they cleanse the stomach and bowels from those putrid humors which are the cause of the above distressing complaints. They also aid and improve digestion and purify the blood, consequently, as they remove the cause of every form of disease, it is absolutely impossible for them to fail in making a perfect cure of dysentery, cholera

morbus, inflammation of the bowels, &c. Beware of Counterfeits of all kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine .--The safest course is, to purchase of the regular agents only, one or more of whom may be found in every village and town in the State.
